

2024 NATIONAL INTEGRATED SPECIAL REPORT –
DIGITAL AND NEWSPAPER

ADVANCING HEALTH TECHNOLOGIES

Integrated Special Reports are turnkey content solutions in which participating advertisers can be mentioned in at least one story. Produced by Globe Content Studio.

Topics are informed by content management technology that provides our editorial staff and Globe Content Studio with data signals on what is resonating with readers and, more importantly, keeping them engaged. It provides confidence that these are ideal environments to position and deliver your brand message.

Themes for Advancing Health Technologies:

One in five Canadians are without a family doctor, based on a survey by Angus Reid Institute and the Canadian Medical Association in August 2023; 29 per cent of those who do have one still find it difficult to get an appointment. Health care practices, from private practitioners to major hospitals, are increasingly relying on advancing technologies to improve the speed and quality of service delivered across the country as well as fuelling innovation.

Medical prototypes, real-time practice management, consumer tech with enterprise-level applications: The Globe and Mail’s special report on Advancing Health Technologies will look at the leading-edge tech trends in healthcare through a B2B lens.
