

DELIVERING THE GOODS: LOGISTICS, TRANSPORTATION AND INVENTORY MANAGEMENT

Integrated Special Reports are turnkey content solutions in which participating advertisers can be mentioned in at least one story. Produced by Globe Content Studio.

Topics are informed by content management technology that provides our editorial staff and Globe Content Studio with data signals on what is resonating with readers and, more importantly, keeping them engaged. It provides confidence that these are ideal environments to position and deliver your brand message.

Themes for Delivering the goods: logistics, transportation and inventory management.

Supply chain disruption rocked businesses big and small in the last few years, while they were already facing other challenges. Whether you're an e-commerce retailer selling products direct-to-consumer, a grocer or restaurant waiting on transportation of refrigerated perishables or an enterprise company relying on trucking and freight to meet tight delivery schedules, logistics, transportation and inventory management are core to your business.

This special report in The Globe and Mail will look at those establishing systems, processes and technologies for more reliable operations at all levels of business, including innovations that will scale alongside your organization.
