

2025 NATIONAL INTEGRATED SPECIAL REPORT – DIGITAL AND NEWSPAPER

Green real estate

Building a Sustainable Future

INTEGRATED CONTENT FEATURES: Turnkey solutions in which participating advertisers can be mentioned or quoted in at least one story.

Click on the report below to see a similar past feature

With Canada’s building sector accounting for 13% of national greenhouse gas emissions, real estate has a critical role to play in climate solutions. This special feature will highlight innovative practices, green building technologies, and policy initiatives shaping the future of environmentally conscious real estate.

Proposed topic highlights:

Net-Zero Buildings: Cutting-edge projects achieving carbon neutrality.

Urban Sustainability: Innovations in eco-friendly urban planning.

Renewable Materials: The rise of sustainable construction practices.

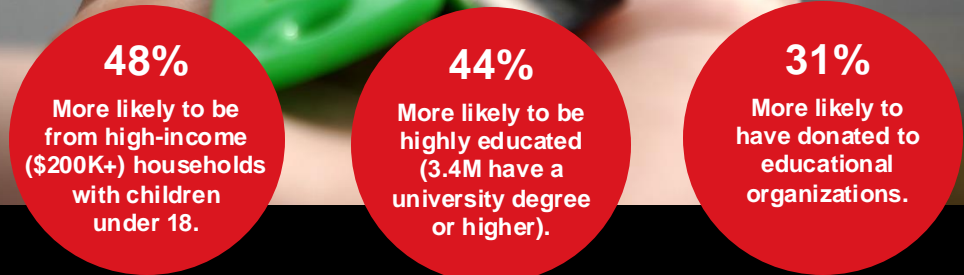

Green Financing: How investments are driving environmentally responsible projects.

Community Impacts: Real estate’s role in fostering sustainable living.
