

2025 NATIONAL INTEGRATED SPECIAL REPORT –
DIGITAL AND NEWSPAPER

Future of Digital Infrastructure

INTEGRATED CONTENT FEATURES: Turnkey solutions in which participating advertisers can be mentioned or quoted in at least one story.

Click on the report below to see a similar past feature

As organizations in every sector deepen their digital capabilities, the infrastructure supporting them must evolve at pace. This special feature will explore the future of networking, cloud, and data centre solutions in Canada, highlighting how businesses are managing complexity, securing critical systems, and driving agility across hybrid environments.

- Proposed topic highlights:**
- Cloud Strategy & Optimization:** Evaluating public, private, and hybrid cloud approaches to improve flexibility, cost control, and performance.
 - Network Modernization:** Upgrading enterprise networks to support automation, scalability, and next-gen collaboration.
 - Data Centre Evolution:** How edge computing, sustainability, and AI are shaping the data centres of the future.
 - Cybersecurity at Scale:** Embedding protection and resilience across increasingly complex and distributed IT environments.
 - Partnering for Success :** The role of managed service providers and technology integrators in navigating digital transformation.
