

2026 NATIONAL INTEGRATED SPECIAL REPORT –  
DIGITAL AND NEWSPAPER

# Rare Earth Minerals

**INTEGRATED CONTENT FEATURES:** Turnkey solutions in which participating advertisers can be mentioned or quoted in at least one story. The PDF overviews are intended to be a thematic starting point. Topics highlighted will be revisited and updated during the production stage to align with the current situation

As global demand accelerates for clean energy, advanced manufacturing, and digital infrastructure, rare earth minerals have become a strategic priority for governments and industry alike. Canada's resource base, regulatory environment, and growing role in critical mineral supply chains position it as a key player in securing materials essential to modern economies. This special feature will examine how investment, innovation, and policy are shaping the future of rare earth development and processing.

## Proposed Topic Highlights

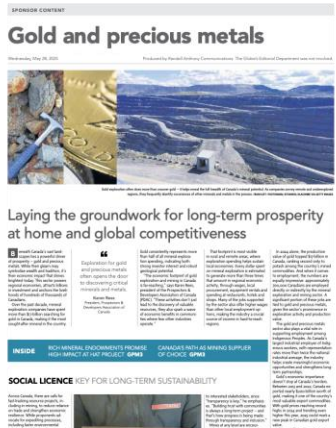

- Supply Chains:** Reducing reliance on concentrated global sources.
- National Strategy:** Canada's role in critical minerals security.
- Processing & Refining:** Building domestic capacity and expertise.
- Sustainability:** Environmental stewardship and responsible extraction.
- Investment Landscape:** Capital flows, partnerships, and risk.
