REPRODUCED PURSUANT TO THE GLOBE EDITORIAL MATERIAL EXEMPTION

INSIDE

2 Plans for turning Canada into a superpower in AI 10 Environmental footprint of Mount Royal 17 The future of AI in Canada 18 A new era of AI-powered technology development 19 An Indigenous AI approach to stronger food security 20 Creating entrepreneurial incubators in Canada 21 University of Waterloo shaping the future of food production 22 University of Fraser Valley 23 Leading space researchers from Earth at the University of Toronto continue mission to Mars

Artificial intelligence is reshaping the future of medicine, offering unprecedented potential in diagnosis, care optimization, and patient monitoring. This feature will showcase how Canadian innovators and health systems are using AI responsibly to enhance outcomes, reduce strain on providers, and personalize care.

### Proposed topic highlights:

**AI in Early Diagnosis** – Tools detecting disease faster and with greater accuracy.

**Operational Efficiency** – AI applications that reduce wait times and administrative burden.

**Ethics & Data Privacy** – Balancing innovation with responsibility.

**Training the Workforce** – Equipping clinicians to harness AI tools effectively.

**Spotlight on Startups** – Canadian ventures leading AI-health breakthroughs.
