THE GLOBE AND MAIL

Canada's automotive transformation

INTEGRATED CONTENT FEATURES: Turnkey solutions in which participating advertisers can be mentioned or quoted in at least one story. The PDF overviews are intended to be a thematic starting point. Topics highlighted will be revisited and updated during the production stage to align with the current situation

As one of Canada's largest manufacturing industries, the automotive sector plays a critical role in employment, trade, and domestic production. Today, shifts in vehicle technology, supply-chain strategy, and workforce requirements are redefining how the industry competes and grows. This special feature will explore the trends influencing Canada's automotive landscape and the opportunities unfolding across the value chain.
