Strategic wealth management

Unlocking wealth for Canada's small business owners

THE NEW REALITY OF WEALTH is becoming increasingly clear: wealth is no longer just about money. It's about the ability to manage risk, protect assets, and create a sustainable future for generations to come. This is the new reality of wealth, and it's one that small business owners are uniquely positioned to understand. As the economy shifts and the needs of clients evolve, wealth managers must adapt their strategies to meet these challenges. This report explores the latest trends in wealth management, from digital assets to AI-driven services, and offers practical advice for small business owners looking to build a successful wealth management practice.

Financial technology continues to reshape the global financial landscape, transforming how individuals, businesses, and institutions move, manage, and protect money. As FinTech shifts from disruption to core infrastructure, innovation is increasingly focused on scale, resilience, regulation, and real-world application. This special feature will explore how emerging technologies, evolving business models, and regulatory frameworks are redefining financial services for the next phase of growth.

- Proposed topic highlights**
- Next-generation payments:** The continued evolution of real-time payments, digital wallets, embedded finance, and programmable money across consumer and enterprise use cases.
 - AI-driven financial services:** How artificial intelligence is reshaping fraud prevention, credit assessment, compliance, personalization, and operational efficiency.
 - Digital assets and financial infrastructure:** The practical role of blockchain, tokenization, and digital asset infrastructure in payments, settlement, and capital markets.
 - Risk, regulation, and trust:** How FinTechs and financial institutions are navigating cybersecurity, data protection, and increasingly complex regulatory environments.
 - Financial access and inclusion**
Technology-enabled solutions expanding access to financial services for individuals, small businesses, and underserved communities.
 - Scaling and sustainable growth**
How FinTech companies are evolving funding models, partnerships, and business strategies to move from rapid growth to long-term viability.
